Optional Survey Questions (May be submitted anonymously if desired)

1. Did the UCSB graduate program in Chemistry meet your expectations? Did you find it to be an enriching experience? Do you still feel that you made the best choice possible for your graduate career? Why or why not?
2. Did you feel supported by the faculty in the program throughout your studies? Academically, emotionally, financially? Why or why not?
3. Did you feel supported by the administrative staff in the program? Why or why not?
4. What was your favorite or most valuable experience during your time in graduate school?
5. What was your least favorite experience in graduate school?
6. How would you improve the UCSB Department of Chemistry and Biochemistry graduate program or what suggestions would you offer the faculty and/or staff for improvement in the future?
7. What advice would you offer new students entering the program?
8. Would you like to be featured in future Departmental print and online publications, such as brochures, posters, and the web site? If yes, please include your name on this survey.
9. Are you interested in attending future alumni events, such as seminars or social activities?
