

Chemistry and Biochemistry Majors Undergraduate Research/Internships Sheet

If you are looking for some opportunities, there are a lot out there. Here are some things to get you started...

I. Medical Opportunities in the Santa Barbara Area

- Cottage Hospital Volunteer: (805) 569-7357 or if you have EMT certification: (805) 893-2319
- Isla Vista Medical Center: (Behind Rosaritos) Walk in.
- Student health at UCSB: Visit the website at <http://www.sa.ucsb.edu/studenthealth/>
- Adventures in Caring Foundation: (Raggedy Andy or Anne) (805) 687-5801 ex. 1 or visit <http://www.adventuresincaring.com>.

II. Research Opportunities (Mostly for Juniors and Seniors)

- **Chemistry Department Research Opportunities** (*Chem 199*). If you are interested in working with a professor, you may contact the faculty member and ask about undergraduate research opportunities available with them. You can review specific members of the faculty's research by looking at our website (www.chem.ucsb.edu/people/faculty). Prepare a statement of interest email to the faculty explaining why you want to work with them. Include your grades, your current availability, past and present courses taken and current class standing.
- **Undergraduate Research and Creative Activities (URCA):** www.LTSC.ucsb.edu/urca.
- **General Undergraduate Research at UCSB:** www.research.ucsb.edu/undergrad
- **Mayo clinic summer Undergraduate Research Program:** www.mayo.edu/mgs
- **American Heart Association:** www.americanheart.org
- **National Science foundation Research Experiences for Undergraduates:** <http://biochemistry.tamu.edu>
- **REU Chemistry Summer Program:** www.sunysb.edu/ureca/chemistryreu.htm

III. Opportunities Binder

Please check the Opportunities Binder for additional opportunities located in the Chemistry and Biochemistry Dept., Trailer 232. There are many opportunities in the binder that haven't yet been taken advantage of!
