

CHEMICAL SCIENCES STUDENT SEMINAR

Travel Grant Recipients

Ranjay Saha

Chen Lab

“Vesicle Membranes Act As Simple Chaperones for Functional RNA”

Athina Anastasaki

Hawker Lab

“One ring to rule them all-Universal Condition for the Controlled Polymerization of Acrylates, Methacrylates, and Styrene via Cu(0)-RDRP”

Julija Vinckeviciute

Van der Ven Lab

“Effect of local environment on atom migration in layered oxides”

Anirudha Banerjee

Squires Lab

“Solutio-inertial phenomenon: Steering colloidal particles over millimeter distances”

Veronica Laos

Bowers Lab

“Investigating Toxic Agents involved in Neurodegenerative Diseases”
